

A vertical diagram showing the layers of virtualization. At the top is a light green box labeled 'Virtual Machine'. Below it is a grey box labeled 'VMM'. Below that is another grey box labeled 'Hosting OS'. At the bottom is a 3D illustration of a CPU. A dashed arrow points upwards from the 'Hosting OS' box to the 'VMM' box, and a solid line connects the 'VMM' box to the 'Virtual Machine' box. The CPU is connected to the 'Hosting OS' box by a solid line.
